PREMIER EDUCATIONAL EVENT

Each summer, we gather the leaders of the companies, agencies and organizations that are at the heart of the historic preservation movement in Maryland for professional development training. Thanks to the ongoing support of the Middendorf Foundation, the Summit has become a premier educational event where leading national experts train Maryland's community development professionals in the skills they need to revitalize the historic communities of the Old Line State.

This year sessions will focus on placemaking, Smart Growth advocacy, use of VR technologies at historic sites, the process of documenting a site, working through the process of real estate development, learning the new cemetery documentation tool from Preservation Maryland and the State Highway Administration, highlighting Latinx history, responding the challenges of climate change, and a walking tour of Frederick's architecture.

OLDLINESTATE.ORG

BECOME A CORPORATE SPONSOR TODAY!

Sponsorship gives banks, architects, contractors, product manufacturers, public agencies, insurance brokers, and others the opportunity to showcase their products and services to preservation decision makers. Sponsor literature will be distributed to all attendees and sponsors are encouraged to engage with attendees by participating in the education sessions.

Higher level sponsorships receive greater visibility and recognition. Benefits are summarized on the back.
