

Building Communities: Telling Maryland's Story Through Historic Architecture

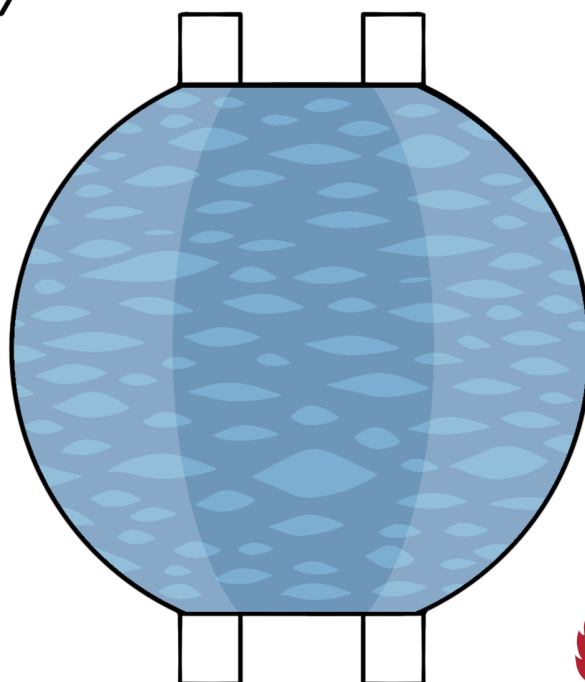

Gilpin Falls Covered Bridge

Elkton, MD

ca. 1860.

Gilpin Falls Covered Bridge is one of Maryland's few surviving covered bridges and represents nineteenth-century timber bridge engineering. Preservation of the bridge protects an increasingly rare type of historic infrastructure and offers insight into the transportation networks that once connected rural communities and commerce..

MARYLAND**

Protecting Our Past, Investing in Our Future

Preservation Maryland is a nonprofit dedicated to revitalizing and reinvesting in communities, advocating for historic places, and building the historic trades workforce for the benefit of all Marylanders. This paper model is part of our Building Communities series, which highlights the history and architecture of Maryland's historic structures—and the ongoing impact they have on the communities where they reside. To support Preservation Maryland and our Historic Property Redevelopment Program, visit www.presmd.org/donate.

Support for this project comes from the Maryland 250 Commission, celebrating Maryland's rich 250-year history.

Instructions

Cut out the buildings along the solid edge of the structure, leaving in the tabs. Fold the paper along the dotted lines. Glue the shaded tabs to the areas shown in the example image above. Glue each separate structure to the indicated areas in the drawing above.
