

Building Communities: Telling Maryland's Story Through Historic Architecture

San Domingo Schoolhouse

Wicomico County, MD

ca. 1886.

The San Domingo School was founded around 1886 to educate African American children in the San Domingo community on Maryland's Eastern Shore following Reconstruction. The current school building, completed in 1919, is a Rosenwald School, funded through a partnership among the Rosenwald Fund, the local African American community, and public education officials. Designed according to plans developed through the Tuskegee Institute, Rosenwald schools brought improved educational facilities to Black students across the segregated South. The San Domingo School is one of the best-preserved Rosenwald schools in Maryland.

MARYLAND**

Protecting Our Past, Investing in Our Future

Preservation Maryland is a nonprofit dedicated to revitalizing and reinvesting in communities, advocating for historic places, and building the historic trades workforce for the benefit of all Marylanders. This paper model is part of our Building Communities series, which highlights the history and architecture of Maryland's historic structures—and the ongoing impact they have on the communities where they reside. To support Preservation Maryland and our Historic Property Redevelopment Program, visit www.presmd.org/donate.

Support for this project comes from the Maryland 250 Commission, celebrating Maryland's rich 250-year history.

Instructions

Cut out the buildings along the solid edge of the structure, leaving in the tabs. Fold the paper along the dotted lines. Glue the shaded tabs to the areas shown in the example image above. Glue each separate structure to the indicated areas in the drawing above.
